THERE'S
MONEY IN A
FAMILY ORCHARD

SPECIAL
DELICIOUS SAME
PRICE AS OTHER APPLES

After you have read the editorial from the Fruit Grower of St. Joseph, Mo., at the foot of this page, take a few moments and figure how much it would reduce the table costs if you grew all the fruit you could use. Probably the saving it would effect will be surprising. Home grown fresh fruits will take the place of many other table delicacies one would have to buy on the open market at constantly rising prices. Then figure the benefits in health and convenience. If we must depend on the market we often do without or take something that is not just what we want and perhaps does not answer the purpose as well. If grown at home it may be secured at a moments notice, and no fruit is so delicious as that fully ripened before picking. Where ever there is room, the family orchard will be found most profitable. And there is often a ready market for any surplus, and at good prices.

FOR THAT IDEAL HOME

you have pictured in your mind, shade trees, flowers and shrubs will also be necessary. Half the pleasure you secure from these is in the additions you make from year to year--perhaps a shade tree or two, a cluster of flowering shrubs, or some new varieties of hardy flowers or more of some old ones you particularly like. From childhoods days we have watched for the first blossoms of spring and have enjoyed the progress of the seasons with the later flowers and the fall foliage effects. Possibly the children get the most enjoyment out of flowers--but we are all children grown up. And nothing adds a home-like touch to the house like plenty of flowers.

MONEY IN A FAMILY ORCHARD

Unless you already have a good family orchard there is no crop or combination of crops which can be grown on a small area that will equal in actual food value and satisfaction a good family orchard. In this case the word "orchard" should include all kinds of fruits, from the very earliest strawberries and dewberries to the very latest apples, pears and quinces. Unless you have learned from experience, you cannot realize the almost endless variety of fruits which are possible in a family orchard. Did you ever know an orchard that started bearing in May and continued until frost, with some sort of fruit every day during that time? Yet it is possible and very easy to accomplish in almost all sections of the United States, excepting in the most northerly portions, where the month of May is too early.

Beginning with strawberries, the list runs through currants, raspberries, gooseberries, blackberries, blueberries and grapes, plums, apples, peaches, pears and quinces. By the use of different varieties of these various fruits it is easily possible to have plenty of ripe fruit every day during the season. Take a calendar and note the time of ripening of the early and late varieties of the different fruits listed, and see if you are not surprised at the possibilities offered in even a small family orchard.—*The Fruit Grower, Nov. 15, 1916.*

IT'S PLANTING TIME NOW

If your profit from fruit and your pleasure from flowers is not to be deferred till another year, you will want to plant soon--the sooner the better. Prices will not be lower later, and probably will be higher next season. The demand is heavy, and the supply generally is not as great as last year. Delays pay no dividends. Don't put it off until you lose a year. Mail your order now and get them started.

Yours truly,

WILD BROS. NURSERY CO.

Apple Profits

Very frequently we hear men question the profits to be made from apple growing in the Middle West. Just now we have a report from the owner of a 40-acre orchard in Missouri claiming that his apple crop this year sold for $8,000 at the orchard, unpacked. Seems like an enormous amount from 40 acres, don't it? Yet there is a little 20-acre orchard in Kansas that did considerably better than that in 1915. In 1914 a 16-acre orchard in Iowa produced fruit that sold for $5,700. So you see that the claim of this Missouri man is not at all improbable.—*Fruit Grower, Nov. 15, 1916.*

Mr. A. T. Nelson of Laclede county, Missouri, who has made an international reputation for himself and his apples, says:

"I get a good yield right along and sell all of my apples at prices that give me a good, big acreage income. I believe that there are greater possibilities for apple growers today that ever before. I believe more people should plant orchards now. I am doing so and expect to keep on doing so. I am giving my young orchard the best of care and expect to keep it up."—*Fruit Grower, Nov. 1, 1916.*

In the last sentence you will find the secret of success—care. There are thousands of acres where apples can be grown just as successfully as in the famous apple regions if given care, and that is necessary even in those sections.

The ripening dates are approximate average here; allow about five to seven days for each 100 miles North or South. The altitude will also affect the date of ripening.

Price of Two Year Apple

	Each	Per 10	Per 100
XX size about 4½ ft. and up 11/16 in. cal. and up, branched	$0.25	$2.25	$20.00
Extra size, about 4 to 5 ft., ⅝ in. cal. and up, branched	.20	1.75	16.00
Standard size, about 3½ to 4½ ft., ½ to ⅝ in. cal., branched	.15	1.40	12.50
Medium size, 3 to 4 ft., more or less branched	.12	1.00	7.50

Five of a variety at 10 rate, less at each rate; 50, not less than 10 of a variety, at 100 rate.

Summer Apples

Benoni—Deep red on rieb yellow; juicy, pleasant, mild subaeid; good; early to mid-July.

Connor's Sweet—Light red, slightly striped; medium large, fine grained; one of the best sweet summer apples; latter August.

Duchess of Oldenburg—Yellow, almost covered with red stripes; good size; juicy, rather acid; excellent for cooking and market; July 15-Aug.

Early Harvest—Bright straw; crisp, juiey, rich subacid; good, June 20-July; productive.

Livland Raspberry—Waxy, white-striped light crimson; juicy, mild subaeid, almost sweet; medium size, fine quality; a young bearer; very early.

Red June—Very red; juicy, brisk subaeid; good; latter June-July; a young, abundant bearer.

Sweet June—Light yellow; very sweet; medium size; very productive; June-July.

Yellow Transparent—Yellowish-white; good size; juicy, sprightly subacid; good; mid-June, some earlier than Early Harvest; bears young.

Autumn Apples

Maiden Blush—Large, clear yellow, crimson cheek; very juicy; good, mid-autumn; bears young

Wealthy—Large; bright red; very juicy, agreeable subacid; Sept.-Oct.; hardy, productive.

Winter Apples

Arkansas Black—Medium large; almost black; flesh yellow; subacid; Dec.-March; unproductive on some soils; commands a good price where it can be grown.

York Imperial—Large; attractive greenish-yellow shaded red and crimson; firm, crisp, juicy, subacid becoming mild; Dec.; bears heavily.

Delicious—Roundish conic, medium to large, pale yellow, mostly covered with red, splashed and striped dark carmine; juicy, mild subacid; good.

	Each	Per 10	Per 100
XX size, 2 year	$0.30	$2.80	$25.00
Extra size, 2 year	.25	2.00	20.00
Standard size, 2 year	.20	1.75	15.00
Medium size, 2 year	.15	1.50	10.00
Light size, 2 year	.10	.80	7.00

Above prices apply to Delicious only; all other varieties quoted at beginning of apple list.

Gano—Large; attractive rich red to maroon, rarely striped; firm, moderately crisp, juicy, mild subacid; ships well, keeps well, bears young, regularly and abundantly; profitable; of the Ben Davis type and season but more highly colored.

Grimes Golden—Of best quality; beautiful golden yellow, medium to large; crisp, juicy, rich subacid; fine dessert apple, good for cooking; Oct.-Dec.; blooms late; bears young.

Huntsman—Large; deep yellow, usually blushed; juicy, mild subacid; good, Nov.-Dec.

Ingram—A very late keeper; yellow, almost covered with bright red stripes; juicy, mild subacid; good; blooms late; bears young and heavily.

Jonathan—Very attractive lively deep red; high flavor; excellent for dessert, cooking and market; firm, crisp, juicy, sprightly subacid; Oct. and later; bears rather young.

Mammoth Black Twig—A late keeper; greenish, largely overspread dull deep red, on some soils almost black; firm; subacid; good.

Stayman Winesap—Large; greenish-yellow striped, often nearly covered with dark red; crisp, very juicy, pleasant subacid; good to very good; keeps well; bears young and regularly.

Winesap—Bright deep red; flesh yellow, very rich, crisp, very juicy, sprightly subacid; very good; Dec.-March; bears young.

Crab Apples

Transcendent—Medium to large; yellow, crimson cheek; crisp, juicy, Aug.-Sept.; productive.

Yellow Siberian—About 1-1 in. in diameter; much used for preserving whole; a young bearer.

Peaches Bear Young

Peaches often come into bearing the third year, and offer great opportunities for quick returns and give good profits to the man who will take care of his trees. *The Fruit Grower for January 1, 1917*, tells of a man in Southern Illinois who in 1916 sold $23,000 worth of peaches from 40 acres. This is in a country not especially adapted to peaches but due to care of the orchard—fertilizing, cultivation, spraying and pruning. Do you wonder that this man is planting 3,500 more trees?

A sandy loam or gravelly soil is best, but the Peach adapts itself to any well-drained soil. If you have the choice of location give them a northern slope. Plant 16x16 feet requires 170 trees; 18x18 feet, 134 trees per acre.

Price of One Year Peach:	Each	Per 10	Per 100
XX size, 5/8 in. cal. and up, about 4½ ft. and up	$0.25	$2.00	$16.00
Extra size, 9/16 to 11/16 in. cal., about 4 to 5 ft	.20	1.75	14.00
Standard size, 7/16 to 9/16 in. cal., about 3½ to 4½ ft	.15	1.40	12.50
Medium size, 3 to 4 ft	.13	1.00	7.00

Five of a kind at 10 rate, less at each rate; 50, not less than 10 of a kind, at 100 rate.

The following list is arranged approximately in order of ripening. The dates named are approximate average season in this section:

Mayflower—The earliest; good size, red all over, firm; semi-cling; good shipper; hardy; productive.

Greensboro—Large, colored beautifully with crimson with a yellowish east; flesh white, very juicy; excellent; semi-cling; mid-June; hardy; profuse bearer.

Carman—Large, creamy white splashed red; juicy, rich, sweet, very good; nearly free; hardy.

Champion—Large, white, beautiful red cheek; flesh white, sweet, juicy, rich, delicious; freestone; early August; quite hardy; productive; bears young.

Belle of Georgia—Very large, white, red cheek; firm, juicy, high quality; freestone; early August; hardy, very productive; excellent shipper.

Crawford Early—Very large, yellow, deep red cheek; rich, slightly subacid; freestone; early August.

Elberta—Very large, golden yellow, crimson cheek; firm, juicy, good; freestone; mid-August; excellent for shipping, vigorous, productive, profitable.

Crosby—Orange yellow splashed red; sweet, juicy, rich; freestone; latter August; medium size; very hardy.

Oldmixon Cling—Large, creamy white, red cheek; flesh white, juicy, rich, fine; latter August; prolific.

Crawford Late—Very large, yellow, deep red cheek; juicy, rich; freestone; latter August-September.

Stump—Large, white with red cheek; flesh white, juicy, excellent; free; late August-September.

Heath Cling—Very large, creamy white, sometimes faintly blushed; flesh white to pit, rich, very juicy, sweet, fine; latter September.

Salway—Large, yellow, red cheek; flesh yellow, firm, juicy, sweet, good; freestone; late September to early October; good shipper.

Plum Trees

Price of Plum:	Each	Per 10	Per 100
Extra size, ⅝ to ¾-in. cal., about 4½ ft. and up, branched	$0.30	$2.50	$22.00
Standard size, ½ to ⅝-in. cal., about 3½ to 4½ ft., branched	.25	2.00	18.00

Five of a kind at 10 rate, less at each rate; 50, not less than 10 of a kind, at 100 rate.

Arranged approximately in order of ripening; dates named are average dates here.

Red June—Japan. Dark coppery red; juicy, sweet; semi-cling; early; productive.

Wild Goose—Oval, bright red with many white dots; medium to large; cling; requires cross-pollenizing; early July; productive. X size Wild Goose are graded 9/16 in. cal. up; Std. 7/16 to 9/16.

Abundance—Japan. Large, bright red over yellow; juicy, sweet, rich, very good; cling; mid-July; hardy, productive; bears young.

Burbank—Japan. Very large, bright dark red on yellow; firm, juicy, rich sugary; cling; latter July; bears profusely.

Shipper's Pride—European. Large; dark purple or blue; firm, good quality; early September.

Shropshire Damson—European. A large Damson; dark blue; cling; latter September; vigorous.

Wickson—Japan. Large, heart-shaped; dark red; flesh solid, meaty, sweet; cling.

OTHER Fruits, Rhubarb, Shade Trees, Evergreens, Shrubs, Roses and Hardy Flowers are described on the inside pages.

Cherries Give Big Returns

Early Richmond Cherry is very productive.

"Six years ago I had a number of choice cherry trees left in the nursery after the spring delivery was over and I did not like to destroy them. So I went to a friend and spent about one-half day endeavoring to make him see where he could make some money by planting a cherry orchard. I knew this man would give the trees good care and was sure he would succeed. He finally agreed, planted the trees, gave them good care, and to date he has picked four crops of fruit from this orchard."

"These trees, six years from planting, averaged thirty gallons to the tree for the 1915 crop. He sold all of this fruit at the orchard at 40c a gallon, or at the rate of $12 a tree. Picking cost, 6c a gallon; spraying 20c a tree, or a total of $2 a tree for spraying and picking, leaving the income at $10 a tree." So writes a Missouri nurseryman in the *April 1, 1916, Fruit Grower.*

Plant 18 to 20 feet apart on well drained ground. The list is arranged in the order of ripening.

Price of Cherry:	Each	Per 10	Per 100
XXX size, 2-yr., ¾-in caliper up, 5 to 6 ft., branched	$0.50	$4.50	$40.00
XX size, 2-yr., 4 ft. and up, ⅝-in. caliper, branched	.40	3.30	28.00
Extra size, 2-yr., 3 to 4 ft., ½ to 9/16-in. caliper, branched	.30	2.50	22.00

Five of a kind at 10 rate, less at each rate; 50, not less than 10 of a kind, at 100 rate.

Dyehouse—A few days before Early Richmond; a productive, reliable bearer; May.

Early Richmond (May Cherry)—Medium size, round, bright red, darker when fully ripe; very juicy, sprightly acid; latter May-June; hardy, very productive; profitable; succeeds everywhere.

Montmorency—Rather large, dark rich red; juicy, pleasant acid; excellent; a week later than Early Richmond; vigorous, hardy, productive; successful everywhere.

Royal Duke—A half-sweet Cherry; very large, dark red, juicy, rich; mid to latter June; the nearest sweet that succeeds here.

English Morello—Large, dark red, nearly black; flesh dark purplish crimson; juicy; rich acid; prolific; latter June-July; dwarfish.

Pear Trees

Price of Pear (Bartlett 5c each higher):	Each	Per 10	Per 100
XX size, ⅝ to ¾-in. caliper, 4 to 6 feet	$0.30	$2.50	$22.00
Extra size, ½ to ⅝-in. caliper, 4 to 5 feet	.25	2.00	18.00

Five of a kind at 10 rate, less at each rate; 50, not less than 10 of a kind, at 100 rate.

Pears are graded by caliper or diameter. The height is the approximate average and varies with the habit of the tree. Arranged approximately in order of ripening. Dates named are approximate average here.

Clapp's Favorite—Large, yellow dotted and shaded red; juicy, perfumed; latter July-August.

Bartlett—Large, waxy yellow blushed on sunny side; juicy, fine-grained, buttery, rich; latter August; bears young; productive.

Seckel—Small but the richest and highest flavored; brownish-green becoming yellowish brown; fine-grained, sweet, very juicy, buttery; early September.

Garber—Large, waxy yellow; red cheek; early September; good for canning and market and for pollenizing Kieffer and others; especially resistant to blight.

Anjou—Large, greenish yellow, russet and red cheek; fine-grained, melting, buttery, rich; latter September.

Duchess d'Angouleme—Very large, greenish yellow, russet and dull red cheek; juicy, melting, slightly granular; Sept.-Oct.; productive, hardy.

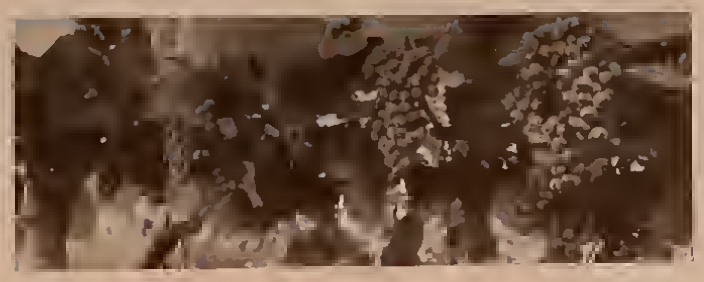
Kieffer—Large to very large, attractive, rich yellow tinted red; very juicy, usually slightly coarse; if picked when mature but before fully ripe and ripened slowly in a cool, dark room, it develops good flavor; very resistant to blight, hardy, very productive, ships well, and a profitable pear; September-November.

Dwarf Pears

Dwarf Pear occupy little room, are valuable where space is limited, and while not so long-lived as Standards, begin bearing younger, often the year after planting. If set 4 to 6 inches deeper than in the nursery they finally become half-standards, increasing their length of life. They may be planted quite close—10-12 feet, and kept headed back.

Duchess d'Angouleme—XX, ⅝ to 11/16 in. caliper. 25c each, $2 per 10, $16 per 100.

Seckel is of highest quality.



Grapes Bear After Freezing

Owing to the habit of bearing, if the instructions in our catalog are followed Grapes will usually give a fair crop even if the first blooms are frozen. They quickly come into bearing, often yielding some the second year after planting. A gravelly soil of average fertility, preferably a southern exposure, is best suited to their needs. The home vineyard may be planted at almost any convenient place. Steep hillsides may be used and become very profitable parts of the farm. Planted 8x8 feet requires 680 plants per acre.

Agawam—One of the best red grapes, large, flesh tender, juicy, rich; ripens after Concord.

Campbell's Early—Large, black, sweet; adheres strongly to stem and a fine shipping grape, very early; bears profusely.

Concord—The most popular large, black; juicy, sweet, vigorous, very hardy, healthy, productive; sold to late August here.

Moore's Diamond—Large, yellowish-green; juicy, good; ripens a little before Concord.

Moore's Early—Black, about two weeks before Concord; desirable for home and market for its size, season, hardiness and productiveness.

Niagara—Large, greenish-white to pale yellow; sweet; good for table or market, a white Concord; ripens with it or a little later.

Worden—Black, large, about 5 to 10 days earlier than Concord, berries larger, of better quality, vigorous, healthy, productive.

Prices of Grapes

	One	Two	Three	Per 10	Per 100
Agawam	$0 10	$0 15	$0 21	$0 60	$5 00
Campbell's Early	15	28	40	1 25	10 00
Concord	10	15	20	50	3 00
Moore's Diamond	10	15	21	60	5 00
Moore's Early	10	15	21	60	5 00
Niagara	10	15	21	.60	5 00
Worden	10	15	21	60	5 00

Above prices are for one year No. 1 vines. It has been demonstrated that they will give a commercial crop as soon as two-year vines. Five of a kind at 10 rates; 50 or more in lots of 25 or more of a kind at 100 rates. Write for prices in large lots.

Gooseberries

The demand for Gooseberries is always good. They are easily grown, readily respond to care, and are reliable annual bearers. Plant 3x5 ft., 2,900 per acre; or 4x5 ft., 2,175 per acre. A northern slope is preferable, especially in the Central and Southern States.

Houghton—Of medium size, but a profuse bearer and of strong, sturdy habit. Very free from mildew, of easy cultivation, the best for most sections, glossy pale dull reddish brown when ripe, but usually pinked green.
2 yr., 12c each, $1.00 per 10, $8.00 per 100
1 yr., 10c each, .80 per 10, 6.00 per 100

Downing—Medium to rather large, pale green, good, productive, midseason.
1 yr., 15c each, $1.25 per 10, $10.00 per 100

Houghton

Currants

Strong 2 year, 15c each, $1.00 per 10, $7.00 per 100.

Fay's Prolific—Large, dark red, mild, good; midseason, vigorous, largely grown for market.

White Dutch—Full medium size, bunch rather long, yellowish white, good quality.

Blackberries Pay Well

Prof. L. H. Bailey says there is no fruit capable of yielding greater profits. Mr. R. B. Rushing says profits depend almost entirely on the management the patch receives. There will usually be from 150 to as high as 250 cases of 24 quarts from an acre, and that it is usually consistent to figure on an average of $400 to $150 per acre after paying for picking, boxes and express.

Blackberries begin bearing the second year and may be depended upon for regular, profitable crops. They thrive in almost all soils, but are at their best in strong, deep loam that will retain moisture, tending towards clay rather than sand. They will succeed on soil too light, dry and poor for Strawberries and Raspberries. Plant 2 to 4 feet apart in rows 8 feet apart; 2 by 8 feet requires 2,725 plants per acre.

50 of a kind at 100 rate, 500 of a kind at 1,000 rate. Arranged alphabetically.

Ancient Briton—Large, without core, sweet, very good; ripens with or after Snyder; hardy, very productive. 25c per 10, 45c per 25, $1.50 per 100, $14.00 per 1,000

Early Harvest—The most profitable of all on account of its extreme earliness, hardiness and productiveness; glossy black, firm and ships well, growth strong. 20c per 10, 45c per 25, $1.50 per 100, $14.00 per 1,000.

Lovett—Large, with little core, sweet. 30c per 10, 50c per 25, $1.75 per 100, $15.00 per 1,000

Snyder—Midseason; of medium size, juicy, sweet, while not highest quality, it is valuable for its extreme hardiness and productiveness; indispensable as a midseason variety. 25c per 10, 45c per 25, $1.50 per 100, $14.00 per 1,000.

Ward—Heroic large, tender, sweet; excellent quality. $1.50 per 100, $14.00 per 1,000.

Lucretia Dewberries

Wherever there is a market for Blackberries, Dewberries will be profitable. Ripening between Strawberries and Blackberries, they command a good price. Land can be used that is too wet or not fertile enough for Blackberries and they are less expensive to grow. Plant 2 feet apart in rows 4, or preferably 5, feet apart requires 5,450 or 4,350 plants per acre, respectively.

Lucretia—Large, often 1½ inches long, sweet and luscious throughout, for size and quality is unexcelled by any of the Blackberries, ripens at the close of the strawberry season before Early Harvest; the variety most extensively grown for market. Fine tip plants, 25c per 10, 45c per 25, $1.00 per 100, $8.00 per 1,000.

Raspberry Profits

Another berry that yields quick returns, beginning to bear the second year. It fills the gap between strawberries and blackberries, sells well and is a reliable cropper under good conditions. In the Biggle Berry Book, F. W. Card is quoted as computing the average yield from the figures of 58 growers at nearly 78 bushels per acre.

Planted 4x6 ft., requires 1,825 per acre; 3x8 ft., 2,900 per acre. Deep soil that will retain moisture in a dry season is preferable, the lighter loams for the red, the heavier for the black varieties.

Arranged alphabetically. 50 of a kind at the 100 rate; 500 at the 1,000 rate.

Black Pearl—A new variety that promises to become a leader among black raspberries. A little earlier than Gumberland; of good quality; jet black; firm, hardy, vigorous. 30c per 10, 60c per 25, $2.00 per 100

Cardinal—Very large; very hardy; very productive; easily grown; rich flavor, purplish red. Can be grown farther South than most Raspberries. 30c per 10, 60c per 25, $2.00 per 100, $15.00 per 1,000.

Cumberland—Black cap; very large, firm, of excellent quality, midseason; very hardy and very productive. 30c per 10, 60c per 25, $2.40 per 100, $15.00 per 1,000.

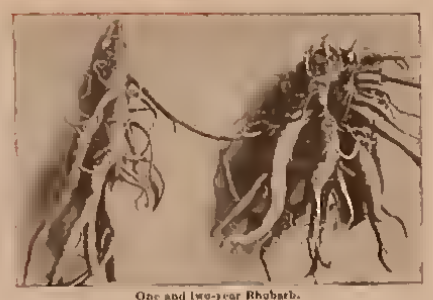
Kansas—Black cap; large, firm, of good quality; early, productive. 25c per 10, 40c per 25, $1.50 per 100, $12.00 per 1,000.

King—Large, bright scarlet; firm; fine flavor; season early and long; hardy, vigorous, productive. 25c per 10, 45c per 25, $1.50 per 100, $12.00 per 1,000.

St. Regis, Ranere—Bright red; good quality; hardy, productive; season early and long; bears freely in the fall in some sections, but little in others. 40c per 10, $2.00 per 100.

Rhubarb or Pie Plant

Rhubarb or Pie Plant is easily produced in a commercial way, yields immensely and is easily gathered and put into shape for market. It can be shipped almost any distance. The demand for it on the market makes it one of the best vegetables for commercial use; Geo. W. Holsinger, before the Horticultural Society. Plant 2½x4 feet, covering the crown 2 inches. The secret of success is well drained soil.



One and two-year Rhubarb.

Myatt's Linnaeus—Early, just before Asparagus, immense stalks, tender, delicately flavored; productive and continuous long in use, the best variety for general use. Nice large roots.

	Each	doz	per 25	per 100
2-year XXX size	$0 15	$1 00	$2 25	$5 00
2-year size	10	60	1 10	4 00
1-year size	10	50	85	3 00

Horseradish

Bohemian—A quick-growing variety, producing very large roots; productive; so easily grown it should find a place in every garden; a rich, moist soil is preferable. Sets, 5c each, 25c doz., $1.00 per 100.

Asparagus

Conover's Colossal—The standard market variety; very large; grows rapid, productive; good.

Palmetto—Large, early, productive, good; very resistant to rust, adapted to North and South.
2-year, 25c per 10; $0.75 per 100.
1-year, 20c per 10; .60 per 100.

Shade Trees

Chestnut.

A handsome shade tree bearing nuts of excellent quality and the burrs are very ornamental; very attractive in bloom.

8 to 10 feet	$0.70 each,	$6.00 per 10
6 to 8 feet	60 each,	5.00 per 10

Catalpa Speciosa, Western Catalpa

Of rapid growth; leaves large, dark green, heart shaped, flowers white, dotted reddish and violet panicles.

6 to 8 feet	$0.35 each,	$3.00 per 10
4 to 6 feet	.25 each,	2.00 per 10

Catalpa Bungei, Umbrella Catalpa

A dwarf form grafted on a straight, upright stem, forming a dense round head, similar to the standard Bay Tree in form but larger and taller.
2-year heads $1.00 each

Elm, American White

A large, stately tree with long, graceful drooping branches. One of the best for street, lawn, landscape and park planting. Perhaps the most rapid growing hard wooded shade tree and easily transplanted.

2½ to 3 inch caliper	$1.50 each,	$12.50 per 10
2 to 2½ inch caliper	1.00 each,	9.00 per 10
1½ to 2 inch caliper	.75 each,	6.00 per 10
1 to 1½ inch caliper	.60 each,	4.00 per 10

American Linden; Basswood

A broad, round-topped tree, grand for street or lawn. Heart shaped bright green leaves, creamy-white flowers.

1 to 1½ inch caliper	$0.75 each,	$6.50 per 10
6 to 8 feet	.60 each,	5.00 per 10
4 to 6 feet	.40 each,	3.50 per 10
3 to 4 feet	.30 each,	2.50 per 10

Sugar Maple; Hard or Rock Maple

Its dense, symmetrical crown and beautiful foliage at once pronounce it the best of its class for lawn, street or avenue planting. Leaves dark green, in autumn beautiful shades of yellow, orange and scarlet.

1½ to 2 in. cal	$1.25 each,	$12.00 per 10
1¼ to 1½ in. cal	1.00 each,	9.00 per 10
1 to 1¼ in. cal.	.75 each,	6.50 per 10
6 to 8 feet	.50 each,	4.00 per 10
5 to 6 feet	.40 each,	3.00 per 10
4 to 5 feet	.30 each,	2.50 per 10

Norway Maple

Large, handsome, with spreading branches and a compact, round head. Foliage deep green, pale yellow in autumn.

1½ in cal., 8 to 10 ft	$1.25 each,	$12.00 per 10
1¼ in. cal., 6 to 8 ft	1.00 each,	9.00 per 10
1 in. cal., 6 to 6 ft	.70 each,	6.00 per 10
4 to 6 feet	.10 each,	3.50 per 10

Soft, White or Silver Maple

Of rapid growth; very effective when quick shade is desired. Leaves bright green, silvery white beneath.

	Each	Per 10	Per 100
2 to 2½ in. cal	$1 00	$9 00	
1½ to 2 in. cal	70	6 00	$45 00

Pin Oak

A handsome tree with drooping branches, forming a broadly pyramidal crown; leaves deeply 5 to 7 lobed, glossy dark green with autumn tones of deep and brilliant crimson, brown and bronze.

2 to 2½ in. caliper	$1.75 each,	$15.00 per 10
1½ to 2 in. caliper	1.25 each,	10.00 per 10
1 to 1¼ in. caliper	1.00 each,	8.00 per 10
6 to 6 feet	.60 each,	5.00 per 10
4 to 5 feet	.40 each,	3.50 per 10

Sugar or Hard Maple has a beauty all its own.

White Oak

A spreading, towering species with rugged, massive trunk and branches; trunk light gray; leaves bright green, in autumn purple and red.

1 to 1½ in. caliper	$1.00 each,	$9.00 per 10
5 to 6 feet	.60 each,	5.50 per 10
4 to 5 feet	.40 each,	3.50 per 10

Plane Tree, American Sycamore

A very large and lofty tree with massive branches forming a round head; whitish mottled trunk; of very rapid growth. An excellent street tree.

2 to 2½ in. caliper	$1.00 each,	$9.00 per 10
1½ to 2 in. caliper	.75 each,	6.00 per 10
1 to 1½ in. cal., 6 to 8 ft	.50 each,	4.00 per 10
6 to 8 ft., under 1 inch	.10 each,	3.00 per 10

Norway Poplar.

"The Sudden Saw Log" will no doubt supplant the Carolina Poplar, which it resembles, but is of perhaps more rapid growth; a most rapid growing hardy tree.

2 to 2½ in. caliper	$1.00 each,	$8.00 per 10
1½ to 2 in. caliper	.75 each,	6.50 per 10
1 to 1½ in. caliper	.60 each,	4.00 per 10
6 to 8 feet	.30 each,	2.50 per 10

Tulip Tree

Yellow Poplar. Tall pyramidal habit; very rapid growth. Well named for its cup-shaped flowers, greenish-yellow blotched with orange, resembling a tulip.

2½ to 3 in. caliper	$2.50 each,	$22.50 per 10
2 to 2½ in. caliper	1.75 each,	15.00 per 10
1½ to 2 in. caliper	1.25 each,	10.00 per 10
1 to 1½ in. caliper	.75 each,	6.00 per 10
6 to 8 feet	.60 each,	5.00 per 10

Hardy Flowering Shrubs

Althea; Rose of Sharon

Valuable as single plants and for screens, hedges, etc. Somewhat bell-shaped flowers in late summer. An excellent assortment of single white, pink and lilac and double white, pink, lilac, red and pink and white in one.

3 to 4 feet	$0.35 each,	$3.00 per 10
2½ to 3 feet	.25 each,	2.00 per 10
Mailing size, postpaid	.20 each,	2.00 per 10

Barberry, Thunberg's or Japanese.

Of dwarf, dense, spreading habit, with graceful spiny branches and small, beautiful green leaves in autumn, a mingling of bronze and crimson. Admirably suited for low hedges and borders.

	Each	Per 10	Per 100
18 to 24 inches	$0 20	$1 50	$12 50
12 to 18 inches	15	1 00	8 00
6 to 12 inches	10	60	5 00

Calycanthus floridus; Sweet Scented Shrub

Valued for its odd, double, spicily fragrant, chocolate-red flowers; twigs reddish. 25c each.

Bush Honeysuckle, handsome in flower, showy in fruit.

Deutzia Pride of Rochester

A vigorous, tall, upright shrub bearing in early spring a profusion of dainty double, bell shaped flowers in racemes 4 to 6 inches long; white outer petals tinted rose; of easy culture.

3 to 4 feet	$0.25 each,	$2.00 per 10
2 to 3 feet	.20 each,	1.50 per 10

Dogwood, White Flowering

(Cornus floridus)—Before the leaves appear the entire tree is white with its showy flowers 3 inches in diameter, curiously blotched with pink.

2 to 3 feet	$0.35 each,	$3.00 per 10
3 to 4 feet	.50 each,	4.00 per 10

Golden Bell

(Forsythia viridissima)—One of the most welcome sights of early spring with its masses of golden yellow flowers, even before the leaves are developed. Erect in habit with green bark.

	Each	Per 10	Per 100
4 to 5 feet	$0.40	$3 50	$30 00
3 to 4 feet	.30	2 50	18 00

Weeping Golden Bell

Golden Bell, Weeping (Forsythia suspensa)—A very graceful drooping form, very free flowering and highly effective planted on banks or retaining walls where the branches droop naturally.

4 to 5 feet	$0.10 each,	$3.00 per 10
3 to 4 feet	.30 each,	2.50 per 10

Hydrangea Hills of Snow

American Everblooming Hydrangea—A good sized shrub to which the name Hills of Snow may well be applied—a profusion of large, snow-white flowers. Easily grown; blooms from June until August. Strong field grown plants, 10c each, $3.00 per 10.

Hydrangea Paniculata Grandiflora

A good variety to follow the above, blooming profusely in August and September; flowers in great pyramidal panicles, white, assuming rose and bronze tints on the exposed sides.

2 to 3 feet	$0.30 each,	$2.50 per 10
1½ to 2 feet	.25 each,	2.00 per 10

Honeysuckle, Bush

A shrub form, second to none in hardihood and delicacy of bloom; literally covered in early spring with pink or white flowers followed by reddish berries. 25 cents each.

Lilac, Persian

For wealth of bloom and fragrance in early spring no shrub can displace the lilac. The Persian is a surer and freer bloomer than the common variety; pale lilac.

3 to 4 feet	$0.36 each,	$3.00 per 10
2 to 3 feet	.25 each,	2.00 per 10

Mock Orange, Sweet Scented

The name is almost a sufficient description. Its creamy-white, very fragrant flowers appear in great profusion in late spring or early summer.

3 to 4 feet	$0.25 each,	$2.00 per 10
2 to 3 feet	.20 each,	1.50 per 10

Mock Orange, Large Flowered

A tall variety with very large, white showy flowers; later than the above.

3 to 4 feet	$0.25 each,	$2.00 per 10

Privet for Hedging

Privet, California—This most popular hedge plant is of free, upright growth, with dark, glossy, green leaves. Nearly evergreen in the Southern States.

1½ to 2 feet	50c per 10, $3.50 per 100
1 to 1½ feet	35c per 10, 2.50 per 100

Privet, Amur River of the North—Resembles California in habit, but somewhat more spreading and much hardier.

2 to 3 feet	80c per 10, $6.00 per 100
1½ to 2 feet	60c per 10, 4.50 per 100
1 to 1½ feet	45c per 10, 3.00 per 100

Snowball

An old time favorite, bearing an abundance of handsome, showy white flowers in large globular clusters in early spring.

1½ to 2 feet	25c each

Spirea

Prices of Spirea except A. Waterer.

	Each	Per 10	Per 100
4 to 5 feet	$0.35	$3 00	
3 to 4 feet	30	2 50	$16 00
2 to 3 feet	25	2 00	12 00
18 to 24 inches	20	1 50	10 00

Spirea Fanteraysii alba—White flowers in finger-like panicles in summer.

Spirea Golden—Bright golden yellow leaves, changing in summer to bronze or yellow.

Spirea Reevesiana, Double—Similar to Van Houttei, but the flowers are double, habit is more upright.

Spirea Van Houttei; Van Houtte's Bridal Wreath—Beautiful at any season; when in bloom in early to late spring its dense drifts of white flower wreaths on gracefully arching branches are singularly graceful.

Spirea Anthony Waterer—Large heads of dark crimson flowers in great profusion all summer. Dwarf. Strong plants. 25c each.

Weigela

Showy in late spring with its quantity of trumpet-shaped, rose-colored flowers clustered thickly along the branches in late spring. Good as a specimen plant and almost a necessity in mass plantings and the shrubbery border.

3 to 4 feet	$0.30 each,	$2.50 per 10
2 to 3 feet	.25 each,	2.00 per 10

California Privet, perhaps the most popular hedge.

Superb Hardy Phlox

These are easily grown and give brilliant summer effects. Many are delightfully fragrant. They are excellent in a mixed border, but the most imposing effects are produced by planting masses of each color. Plant 18x24 inches apart.

Prices: Strong field grown plants that bloom the first summer, 15c each, $1.50 per doz., $11.00 per 100; except as noted. Our selection, assorted named varieties, $1.25 per doz., $10.00 per 100; mixed colors not named, 10c each, $1.00 per doz.

Athis—Beautiful salmon-pink with carmine eye; floret medium large; very tall, strong stem.

Bacchante—A true tyrian rose, with crimson-carmine eye; large floret and truss; tall; strong.

Beranger—White suffused rosy pink with a distinct eye; large floret.

Bouquette des Fleurs—White overlaid pink with lilac center; lovely.

Chateaubriand—Rosy magenta; deeper center; large truss; tall; blooms freely.

Clara Benz—Brilliant carmine-rose, carmine claret eye; floret large; dwarf.

Coquelicot—Fine scarlet, crimson eye.

DeMirlbel—Purplish lilac, lighter halo; very large.

Eclaireur—Rich crimson-carmine, large rosy-white, sometimes pure white star; excellent.

Esclarmonde—White suffused purplish carmine.

Frau Anton Buechner—White, sometimes veined and splashed carmine, floret immense, truss heavy. 20c each, $2.00 per dozen.

Independence—An excellent large early pure white.

Jeanne D'Arc—An excellent late pure white; tall.

Jules Cambon—Clear magenta, large, distinct white star in the center; rich and fine.

La Vogue—Beautiful pure mauve, amaline red eye; strong stems, large truss and floret.

Miss Lingard—The earliest in this list; pure white with faint lilac eye.

Rheinstrom—Salmon-rose, clear and bright; large, a good grower, and one of the best. 20c each, $2.00 per dozen.

R. P. Struthers—Clear cherry-red with darker eye; there is salmon in the flower but it does not detract from its beauty; large floret, heavy truss.

Peachblow—Delicate peachblow pink; large truss.

Siebold—Clear salmon-scarlet, carmine eye.

Stella's Choice—A very fine flowering pure white, large compact truss; excellent.

Von Hochberg—An ideal dark crimson, as velvety as Gen. Jacqmin, the richest of its color; medium height, floret very large. 20c each, $2.00 per dozen.

Phlox give brilliant summer effects. Strong plants, $1.50 per dozen.

Hardy Evergreens

Our evergreens have been transplanted several times to secure an abundance of fibrous roots. When dug the roots are protected and they are packed under cover in a moist atmosphere.

At these prices the roots will be carefully packed in damp shingle tow and bay. If wanted dug with a ball of earth sewed in burlap, add the following to prices quoted, to cover the cost of such: 2 to 3 ft. or smaller, 20c each, $1.50 per 10; 3 to 4 ft., 25c each, $2.00 per 10; and specified "balled and burlapped."

Five of a kind at the 10 rate, less at each rate.

Arborvitæ, Chinese Golden Dwarf; Biota aurea nana—In the spring and latter summer is intense gold suffused with green, in winter becoming green to bronze green. Of superb shape; dwarf, compact habit, excellent.

4 feet	$5.25 each, $40.00 per 10
3 feet	2.00 each, 20.00 per 10
2½ feet	1.50 each, 12.50 per 10
2 feet	1.25 each, 11.00 per 10
1½ feet	1.00 each, 9.00 per 10

Arborvitæ, Pyramidal—Compact and narrowly pyramidal; bright green foliage; in form an almost perfect column.

3 to 4 feet	$0.75 each, $6.00 per 10
2 to 3 feet	.60 each, 5.00 per 10
1½ to 2 feet	.50 each, 4.00 per 10

Arborvitæ, Siberian—A small extremely hardy tree, very dense, dark green foliage.

3 to 4 feet	$0.80 each, $7.50 per 10
2 to 3 feet	.65 each, 6.50 per 10
1 to 2 feet	.10 each, 3.50 per 10

Arborvitæ, Globe—A low, compact symmetrical globe with deep green foliage assuming bronze tints in winter.

24 to 30 inches	$1.20 each, $10.00 per 10
20 to 24 inches	.80 each, 6.00 per 10
16 to 20 inches	.70 each, 5.00 per 10
12 to 16 inches	.50 each, 4.00 per 10

Juniper, Irish—Finely cut bluish-green foliage, dense, slender, columnar, formal and striking in outline and very effective.

4 to 5 feet	$0.90 each, $8.00 per 10
3 to 4 feet	.70 each, 6.00 per 10

Juniper, Savin—Thickly branched, low and spreading; very dense, dark green foliage. A favorite where an unusual tree is desired.

3 to 4 feet spread	$1.00 each, $9.00 per 10
2 to 3 feet spread	.90 each, 8.00 per 10
1½ to 2 feet spread	.65 each, 6.00 per 10

Pine, White—A tall, stately tree with regular whorls of horizontal branches, forming a symmetrical, pyramidal crown, soft bluish-green leaves. Of rapid growth.

4 to 4 feet	$0.60 each, $5.00 per 10
3 to 3 feet	.50 each, 4.00 per 10
1½ to 2 feet	.10 each, 3.00 per 10

Holly, American (Ilex opaca)—A very handsome evergreen familiarly known as Christmas Holly. Among its spiny green leaves are borne clusters of bright red berries. Should be planted in groups to produce berries. Clip off most of the leaves when transplanting.

4 to 6 feet	$1.00 each, $9.00 per 10
3 to 4 feet	.60 each, 5.00 per 10
2 to 3 feet	.50 each, 4.00 per 10

Boxwood—A small tree or shrub with small glossy, dark green foliage, thickly covering the many small branches, and possessing a peculiar fragrance.

18 to 24 in., bush form	$1.00 each, $9.00 per 10
12 to 18 in., bush form	.60 each, 5.00 per 10
6 to 8 in., for lining out hedges, 10c each, 50c per 10, $4.00 per 100.	

Order Roses Early

Each year we are obliged to decline orders received after our supply is exhausted. Early planting gives better results. Order as soon as you receive this folder, before the assortment is broken.

The prices quoted are for strong two-year plants. We can furnish one-year plants at one-half the printed prices. These were propagated early and are strong, vigorous plants. When the two-years are exhausted, one-year will be supplied at the rate of two for one unless otherwise instructed. The one-year will be shipped about May 1st.

Hardy Ramblers and Other Climbing Roses

Prices: Strong 2-year plants, 25c each, 5 or more at 20c each, except as noted.

Climbing American Beauty—Same color, size and fragrance as American Beauty, but a climber; blooms freely; 35c each, $3.00 per 10.

Climbing Baby Rambler—A climbing form of the Baby Rambler, said to be ever blooming.

Crimson Rambler—Rich, glowing crimson in large compact clusters in great profusion.

Dorothy Perkins—Beautiful shell pink, becoming a lovely deep rose; sweet-scented.

Philadelphia—A deeper and more intense crimson than Crimson Rambler and blooms earlier; unusually resistant to mildew.

Prairie Queen—An old favorite with bright pink flowers, sometimes striped white.

Thousand Beauties (Tausendschoen) — Soft pink passing through intermediate shades to bright rose or rose carmine, in large clusters.

White Rambler—White, sometimes tinted blush; fragrant, full double flowers.

Hardy Hybrid Perpetual Roses

Prices: Strong 2-year plants, 30c each; 5 or more at 25c each, except as noted.

American Beauty—Generally conceded to be the most grandly beautiful in size, form and color, the well-known American Beauty shade. 35c each, 3 for $1.00, $3.00 per 10.

Conrad F. Meyer—Deep, bright pink with the penetrating fragrance of the June roses.

Eugene Furst—Large, full, of fine form, deep red-shaded crimson, blooms profusely.

Frau Karl Druschki—White American Beauty; Snow Queen—magnificent snow-white blooms with large saucer-like petals.

General Jacqueminot—Bright shining crimson; rich, brilliant, velvety and fragrant.

Marchioness of Lorne—Very rich rose, center shaded vivid carmine; very fragrant.

Nova Zembla—White, sometimes flushed pink, full and richly fragrant.

Paul Neyron—Perhaps the largest of roses; deep shining rose, full double.

Prince Camille de Rohan—Very deep rich velvety crimson shading maroon.

Ulrich Brunner—Cherry red of immense size, penetrating, pleasing fragrance.

American Beauty, the most grandly beautiful.

Everblooming Roses

Price same as Hybrid Perpetuals.

It should be borne in mind that some plants are dwarf while others are vigorous, so it is impossible to supply all the same size.

Baby Rambler (Poly.)—Its large clusters of brightest crimson flowers almost hide the plant all summer; grows about 18 inches high.

Blumenschmidt (H. T.)—A sport of Mlle. Franziska Kruger, which resembles in form and growth, but a deep golden yellow, the outer petals edged tender rose; a rich color. 1 year only.

Clotilde Soupert (H. Poly.)—All summer long it produces clusters of full double, fragrant, finely-formed flowers; ivory white, shading to a bright silvery rose. 1 year only.

Etoile de France (H. T.)—A brilliant shade of clear red crimson velvet on long, stiff stems; a good grower and free bloomer.

Etoile de Lyon (T.)—Deep golden yellow; fine buds, full, rich flowers; very sweet. 1 year only.

Gruss an Teplitz (China)—Bright crimson fiery crimson, cup-shaped; blooms freely.

Helen Good (T.)—Delicate yellow, suffused with pink, each petal edged deeper. 1 year only.

Helen Gould (H. T.)—Beautiful, long-pointed buds, warm, rosy crimson flowers.

Kaiserin Augusta Victoria (H. T.)—Delicate creamy white with a delightful fragrance.

La France (H. T.)—Beautiful, silvery rose-pink and over all a satiny sheen, large.

Mlle. Cecile Brunner (Pol.)—A baby pink or sweetheart rose, handsome, miniature buds and flowers in sprays of 3 to 5; color blush, shading light salmon pink, distinct and desirable.

Mlle. Franziska Kruger (T.)—Long-pointed buds, color variable with the season from copper-rose to yellow, always beautiful.

Mrs. Aaron Ward (H. T.)—Copper yellow in the half-open buds, becoming a golden yellow, and when fully open lovely fawn-tinted pink. 1 year only.

Pink Maman Cochet (T.)—There is no finer rose; rich, rosy, pink-shaded silvery rose. 1 year only.

White Maman Cochet (T.)—Like the above, but beautiful snowy-white, the outer petals often tinted pink.

Wm. R. Smith (T.)—Creamy white with soft blending of salmon pink and blush. 1 year only.

Miscellaneous Hardy Perennials

Marvelous Mallows give six to ten weeks of bloom.

Blanket Flower

Gaillardia grandiflora—Blooms from June till fall. Flowers 2 to 3 inches across, reddish-brown, margined yellow. Of easiest culture. 15c each, $1.50 per doz.

Bell Flower, Japanese

(Platycodon)—Its beautiful large, broad, bell-shaped flowers are very effective in the rockery or herbaceous border. White and blue. 15c each, $1.50 per doz.

Bleeding Heart

Deep rosy-red, heart-shaped flowers in graceful drooping racemes in the spring. 15c each, $1.50 per dozen.

Columbine

Columbine (Aquilegia)—One of the most beautiful and elegant hardy flowers. "The plants are of semi-round compact growth, over which the strong, upright flower spikes extend almost two feet. Many dainty small branches bear the ornamental long-spurred flowers in great profusion."—Adolph Kruhm, Garden Magazine. Strong plants to bloom the first spring, mixed colors. 15c each, $1.50 per doz.

Coreopsis—Tickseed

Coreopsis lanceolata grandiflora—"Truly the most popular yellow perennial. A dozen well developed plants will furnish all the yellow daisy-like flowers wanted from May to October. 15c each, $1.50 per doz.

Daisies

Shasta Daisy—The large, showy white flowers with a golden center are borne in great abundance on long stems during summer and autumn. Will bloom abundantly the first year. 12c each, $1.20 per doz.

Foxglove

A profusion of bell-shaped flowers drooping on tall spikes in early summer. These are the gloxinia-flowered variety, of more robust habit with longer racemes and larger flowers which open wider than the common variety. Fine strong plants to bloom the first summer, mixed white, rose and purple, usually spotted. 15c each, $1.50 per doz.

Hollyhock

Their colossal spikes of bloom, 5 to 8 feet high. Double, assorted colors. 15c each, $1.50 per doz.

German Irises

Prices: 15c each, $1.50 per dozen.
Black Prince—Deep, rich, royal purple.
Celeste—Lavender; midseason; tall.
Harlequin Mikanais—White and violet.
Honorabilis—Golden-yellow and crimson-brown.
Ingeborg—Very large pure white flowers of exquisite form. 20c each, $2.00 per dozen.
Lemon—A beautiful lemon color.
Madame Chereau—White, frilled violet-blue.
Orientalis—Intense deep blue; late.
Queen of May—Total effect almost pink.
Sappho—Violet-blue and royal-purple.
Walhalla—Blue, very large. 20c each, $2.00 per dozen.

Japanese Irises.

Large, flat flowers; exquisite color combinations from snowy-white to deep blue-black, royal purple, etc., often with a gold blotch. Choice mixed colors, 20c each, $2.00 per dozen.

Larkspur

Delphinium—These tree flowering plants produce tall spikes of dainty spurred flowers in June and at intervals till frost if cut as they fade. Phlox and larkspurs make an excellent combination as they bloom alternately. Of easy culture. Formosum, a brilliant yet deep blue with white eye, growing 3 to 4 feet tall. Belladonna, unrivaled for persistent blooming, with large spikes of the delightful blue of the skies. Grows 2 to 3 feet high. Gold Medal Hybrids—An excellent strain, mixed deep and light blues. 15c each, $1.50 per dozen.

Lily Orange Day

The tawny orange flowers with wavy margins are produced very freely in latter summer on stems 3 to 4 feet tall. Grows luxuriantly in almost any garden soil. Blooms well even in dry weather. Single and double. 10c each, $1.00 per dozen.

Marvelous Mallows

Six to ten weeks of flowers in rich shades of red, beautiful pinks, blush and white. Immense flowers, from the size of a pie plate to the size of a dinner plate, their great beauty cannot be described. In brilliancy of color and profusion of bloom they surpass all other summer blooming perennials. They begin here in July. They grow and bloom during hot, dry weather better than almost any other flower, making bushes 4 to 6, sometimes 8, feet high in a season. The one-year will bloom the first summer, the two-year will give a grand display.

2-year size	$0.15 each, $3.00 per 10
1-year size	.25 each, 2.00 per 10
1-year size, mixed colors	.20 each, 1.70 per 10
1-year, mixed colors, mail size by parcel post paid	.20 each, 1.70 per 10

Rudbeckia Golden Glow

In latter summer it is very showy with its great clusters of double yellow chrysanthemum-like flowers on stems 4 to 6 feet tall. It will bloom abundantly the first summer and give a grand display the next. Easily grown. 10c each, $1.00 per doz.

Sweet William

(Dianthus barbatus)—A well-known, hardy, free-flowering perennial, producing a splendid effect in beds or borders with their rich and varied flowers. Mixed colors. 15c each, $1.50 per doz.

Violets, Sweet Russian

These give a good crop in early spring and again in the fall; of easy culture, the hardiest of violets, and of strong growth; deep, rich blue; fragrant. 10c each, 3 for 25c, $1.00 per doz.

Hardy Chrysanthemums

For filling the place of the earlier flowers in latter October and November, the Hardy Chrysanthemums are unsurpassed. The flowers withstand ordinary frosts, lasting until they become wet and frozen. They are excellent in the house, keeping a long time in water. A light mulch of clean, bright straw after the ground begins freezing, is all that is needed to carry them safely through the winter.

Prices: Strong plants that will give a good display the first fall, 15c each, $1.50 per dozen, $10.00 per 100. Our selection, good assortment of varieties, 50 for $4.75, 100 for $9.00.

Cerise Queen—Cerise; full double; medium size
